

I. Welcome for you with Conditions

time limit per test: 1 secondⓈ  
memory limit per test: 64 megabytes  
input: standard input  
output: standard output

Given two numbers  $A$  and  $B$ . Print "Yes" if  $A$  is **greater than or equal to**  $B$ . Otherwise print "No".

Input

Only one line containing two numbers  $A$  and  $B$  ( $0 \leq A, B \leq 100$ ).

Output

Print "Yes" or "No" according to the statement.

→ About Time Scaling

This contest uses time limits scaling policy (depending on a programming language). The system automatically adjusts time limits by the following multipliers for some languages. Despite scaling (adjustment), the time limit cannot be more than 30 seconds. Read the details by the [link](#).

→ Virtual participation

Virtual contest is a way to take part in past contest, as close as possible to participation on time. It is supported only ICPC mode for virtual contests. If you've seen these problems, a virtual contest is not for you - solve these problems in the archive. If you just want to solve some problem from a contest, a virtual contest is not for you - solve this problem in the archive. Never use someone else's code, read the tutorials or communicate with other person during a virtual contest.

Start virtual contest
